Soft Skills

- Effective Communication

- Problem Solving & Critical Thinking

- Leadership & Team Collaboration

- Time Management & Organizational Skills

- Adaptability & Continuous Learning

Projects

1. KGL Produce Management System
Frontend & Backend Developer | Vue.js, Node.js, MongoDB

- Designed and implemented a full-stack system for a wholesale produce distributor.

- Features include user authentication, product gallery, credit sales rules, real-time analytics, and role-based dashboards.

- Used glass morphic design principles and integrated multi-currency support and Uganda-specific validations.

2. E-commerce Vendor Dashboard
Frontend Developer | HTML, CSS, JavaScript, MongoDB

- Built an interactive vendor dashboard with product management, sales tracking, and insights.

- Integrated form validation, database storage, and image upload handling.

3. Personal Portfolio Website
Frontend Developer | HTML, CSS, JavaScript

- Created a responsive and professional personal website to showcase skills and projects.

- Integrated GitHub repositories, contact information, and a project gallery.
